5,000 CARS, THIS MONTH'S SCHEDULE AT LOCAL PLANT

350 A DAY BY JULY IS SCHEDULE FOR CHEVROLET HERE.

700 MEN ON JOB

Large Number of Machines Being Driven Away—Bonus Plan Adopted.

Work is humming at the Chevrolet and Fisher Body company plants where each week sees an increase in production. A casual visitor to the plant probably would be most impressed by the efficiency developed in handling the various parts which together make up the complete product. Probably every available practical invention it is possible to utilize will be found in use in the Janesville General Motors factories.

Early in the organization when production was about to be started at the plant, it was announced that the production for June would be 300 cars a day and now comes the announcement that this will be passed in July with 350 cars a day. Naturally the demand for the open model cars is in the warm months of the year but with each year showing a larger demand for automobiles, dealers have learned by experience to take the automobiles when they can get them and store them if necessary.

700 Now in Chevrolet

The present force of workers numbers 700 in the Chevrolet plant, including 100 in the office. Fully this is expected to be increased to 1,000. Every week shows a higher increase in production as compared with previous years and the men become more acquainted with their specific tasks and develop a higher percentage of efficiency the necessity for increases in the rate of the work becomes smaller. After the force of employees reaches a certain point, the increased production is just a matter of increased efficiency.

Many have heard in Janesville concerning the wages paid at the Chevrolet plant but it was stated that all the employees in the factory will in time be on the same wage scale of other Chevrolet plants, when they become accustomed to it. (Continued on Page 3.)

FIRE ALARM CASE WITNESSES GONE

Cronin Case Held Open When McDermott, Loeffler, Can't be Found.

Failure of the defendant and the city's two chief witnesses to appear in municipal court at 10 A. M. Wednesday, resulted in indefinite postponement of the William Cronin case at the request of City Attorney Roger G. Cunningham. Wednesday afternoon, when the case was called on, a fire alarm from the Caloric plant, Friday night.

Cronin called the hour set for his trial, Wednesday, saying he was in Mineral Point and unable to appear until Thursday.

In the meantime, it was developed that Ray Loeffler and Gene McDermott, the city's main witnesses, have left the city and can't be located. McDermott, Chief Newman alleges, admitted when questioned by the police that Cronin pulled the fire alarm.

Thomas Tomkin, also a member of the Friday night party and owner of the car which was wrecked when it struck a phone pole, was present in court, but he was in such a state of intoxication, that night he was unable to say who sounded the alarm, it is alleged.

"I recommend the case be held open until we can locate Loeffler and McDermott and subpoena them as witnesses," said City Attorney Cunningham. "When summons were made out for them, Monday, they could not be served as neither could they be found."

Ray Hayes, contractor, who employs some of the youths sought as witnesses, and Tomkin, differed with Chief Newman on what McDermott said when the chief asked him if Cronin had pulled the box. "He hung his head down and said 'I guess so,'" Hayes and Tomkin said. Chief Newman is sure McDermott's reply was "Yes."

"I'll locate these two as witnesses if it takes 10 months," declared Chief Newman.

UNCLE SAM PLANS TO STRANGLE RUM FLEET OFF COAST

Coast Guard Expects to Drive Booze Fleet Away by Halting Trade.

[BY ASSOCIATED PRESS.]

Washington.—A conference of treasury officials Wednesday decided to make June 15 the effective date of the new prohibition ruling in the supreme court. The decision means foreign shipping lines will have almost a month and a half to adjust their service to meet the new interpretation of the law.

Some complications are anticipated with foreign governments and the date fixed is considered a compromise to work out an agreement with them.

New York.—The government, continuing in a triangular attack on the rum fleet off the Jersey coast, Wednesday, had seized a tug and motor launch, carrying provisions and fuel to the alien craft anchored outside the three mile limit.

The coast guard headquarters issued an order today concentrating all available coast guard boats in the north Atlantic along the New Jersey shore. It was said that the coast guard would be under surveillance of two coast guard cutters day and night.

Conclusion of the winter patrol was made available to the coast guard boats for cutting off shore contacts of the rum fleet. It is the declared purpose of coast guard headquarters to "put the screws down" on customers of the rum ships and the office of Assistant Secretary Clifford of the treasury, in charge of the drive, is convinced the fleet can be driven out for lack of customers.

Delavan Council Turns Down Bids on City Building

Delavan.—Little possibility of the combined armory, city hall and community building being built this year remains, with the action Tuesday night, when the city council turned down the bids made recently for the building, the lowest of which was \$103,000. Available for the project is \$60,000 and at the present time there is little possibility of securing a lower bid on the construction of the building voted a year ago Wednesday, with passage of a bond issue.

The entire bid was made recently, apparently in favor of erecting building with all the present features or not at all and the latter was the only alternative. There is little possibility of obtaining more money, not will contractors give any assurance that the cost will come down this summer.

The bid was laid on the table and nothing is expected to be done on the building this year.

In view of him already being under sentence which cannot be revoked, Judge MacFarland dismissed the local commitment and Holtz was released on completion of his sentence from the Beloit court.

Ruhr Occupation May Be Extended by French Army

[BY ASSOCIATED PRESS.]

Paris.—The new German proposals for a reparation settlement are so far from acceptable to France that a flat rejection of them is regarded by persons close to Premier Poincare as inevitable. The rejection, it is stated, will probably be followed by an extension of the occupation to the right bank of the Rhine.

GERMANY'S DEBT PROPOSAL TO PAY THIRTY BILLION MARKS

[BY ASSOCIATED PRESS.]

Berlin.—Germany's latest reparation offer proposes that the sum total of her obligations in cash and kind under the Versailles treaty be fixed at 30,000,000,000 gold marks.

The German government, in a note made public here Wednesday, simultaneously with its receipt by the entente and Washington governments, proposes that 20 billions of the total be raised before July 1, 1927, in the same manner and be repaid in annual installments before July 1, 1931.

Payments in kind are to be guaranteed by long-term private contracts, breach or violation of which would make offenders subject to fines.

The note proposes the first 20 billion marks of the total of 30 billion be offered for subscription immediately. Interest on bonds up to July 1, 1927, would be taken from the bonds themselves and would be paid into a special fund under control of the reparation commission. If the 20 billion marks cannot be raised by means of a loan before July 1, 1927, interest of five per cent will be paid on that sum from said fund.

The note asserts Germany is making her offer without desisting from her program of passive resistance, which will be continued until the Ruhr is occupied in excess of the stipulations of the Versailles treaty are evacuated and until conditions on the Rhine are restored.

Fulfillment of Germany's obligations, the note continues, depends on the stabilization of her currency, therefore it is necessary, in connection with the regulation of the reparations problem, to bring about a methodic and permanent stabilization in order to remove the apprehensions of other countries with respect to ruinous German competition. Strengthening of her currency will also enable Germany to restore her internal finances, the note says.

In order to realize this program and also to safeguard the interests of those who finance the loans, the German government says it is essential that there be no more forcible seizures of securities.

Understanding is asked that the German government intend that (Continued on page 8)

Formation of a campaign committee is probable. The meeting is under auspices of the American Friends (Quakers) and N. C. Volkay, Chicago, is in the city to take charge of it.

PUSSY MOTHERS TWO SILVER FOX ORPHANS

Stevens Point.—The wool has been pulled over the eyes of a mother cat on the Boston silver fox ranch here. Two tiny foxes, abandoned by their mother, are being "mothered" by a female cat and give the same care as the cat's own offspring. The little orphans, each worth \$600, are developing as rapidly and as healthily as other fox puppies.

Cement Starts Things—and Keeps Them Going

Scores of industries keep producing armies of workmen are kept busy, to supply demands arising from the use of portland cement.

Unlike most common articles, cement not only starts things but keeps them going. On every construction job it creates demand for an almost immeasurable volume of other essential materials and services.

Just take the one most closely related class of these—sand, gravel, crushed stone—the "aggregate" for concrete. Simply to get these out of the earth and prepare them for use during the season of active demand, requires the employment of at least 50,000 men.

Hundreds of thousands more are engaged in concrete work on construction jobs.

One would hardly think that the water in concrete amounted to much. Yet more had to be pumped or measured for this purpose last year than was used altogether in Duluth or Fort Worth.

Transporting the cement and "aggregates" for concrete keeps more locomotives and freight cars busy than there are on the New York Central Railroad.

And those engines burn coal, 6,500,000 tons a year, as much as 6,500 miners take out.

And so the list might be lengthened indefinitely.

The cement industry depends on a great number of other industries. They also depend on it. In a very real sense, these are all one industry.

LA TEST MARKET REPORT

GRAIN

Chicago Review.—Although deliveries today of more than 1,000,000 bushels of wheat on May contracts had a bearish effect on wheat at the opening, the market soon showed gains. Estimates that the total average of spring wheat would be the smallest since 1900 gave a stimulus to buyers and proved sufficient to lift values. The reduction in acreage as compared with last year was figured at 12 per cent. Opening prices, which varied from the same as Tuesday's finish to 5c lower, with May \$1.20@1.25, and July \$1.19@1.24, were followed by a moderate advance and then by a material upturn. Subsequently the market became easier as a result of the government's weekly crop report, which was considered as bearish. The close was unsettled at 5c net decline to 5c advance, with May \$1.10@1.15 and July \$1.20@1.25.

Corn and oats weakened with wheat, but failed to recover so well. After opening unchanged to 5c lower, July \$1.12, the corn market underwent a general sag, and then rallied somewhat. Later the corn market developed strength owing to expected rapid decrease of the amount of corn here. Prices of the soft end of the crop were not lower to 5c advance, July \$1.12.

Oats started at 5c decline to 5c advance, July \$1.12, and held near to the initial figure.

Provisions were weak in line with the hog market.

These Want Ads Have Brought Big Returns at Small Cost

What You See on This Page Is Happening Every Day

GAZETTE WANT ADS are wonderfully productive little workers, especially when they are used right. Making a sale depends on four things: The market, the character of your offer, the price and the way in which you word your WANT AD. And the wording of a WANT AD is very often the most important! Even when your offer is fair and the market good, oftentimes your WANT AD may fail if it is not worded well.

To insure the right kind of response, tell your story adequately.

Phone **2500**

The ad girl will word your ad to make it produce results in the quickest, most economical and most satisfactory manner.

This Coupon

Will be accepted as 10c in cash as part payment on every cash Want Ad placed in the Gazette beginning today for three or more insertions.

Cash for the remaining cost of the advertisement must accompany every order.

This offer expires Wednesday, May 9th, 1923.
